## Course Outline

Email Marketing is one of the most cost effective and powerful forms of online digital marketing and often forms the core of corporate marketing strategies. When managed properly, email marketing can be an effective method of promoting products and services, as well as effectively engaging with customers and clients. It is inexpensive, reliable, measureable and the return on investment (ROI) can be very high.

But it's getting harder and harder to capture the attention of email subscribers and to engage with them effectively. It is also becoming difficult to conduct campaigns without damaging your brand, especially as recipients are now more wary of SPAM marketing and online fraud.

Our new fully-revised Email Marketing training course, also known as EDM (Email Direct Marketing), has been designed to help you make substantial improvements to your email blasting campaigns. By taking you through the fundamental principles behind email marketing strategies, you will gain an impressive insight into this advertising medium and will be able to confidently deploy and manage effective campaigns.

The training course lasts one full day starting at 9.30am until 5.00pm, and is inclusive of course materials, certificate, lunch, refreshments and snacks, along with complimentary four week post course support and assistance. A wi-fi enabled laptop (not iPad or tablet) is required for this course along with a basic understanding of ICT and the internet.
