

Social Media for Business

Is Your Business Social Enough?

One Day Training Course

Course Outline

Since the beginning of the world wide web, there have been huge changes in how media is produced and consumed. The most dynamic and exciting form of this media evolution is social media - a phenomenon that is no longer being used by the few but by the many, and should seriously be considered an essential part of any businesses' digital marketing strategy.

Our social media training course will give you an in-depth understanding of the shifts in this medium that have been occurring; highlight the depth and breadth of the social media landscape, and how your business or brand can benefit by forming a strategy that will comfortably fit into areas such as marketing, product development and customer services.

By studying practical examples and case studies, the principles and fundamentals of social media use for businesses and organisations will be explained and clarified through this interactive training course, enabling attendees to run and manage strategies within their respective marketing frameworks.

The training course lasts one full day starting at 9.30am until 5.00pm, and is inclusive of course materials, certificate, lunch, refreshments and snacks, along with complimentary four week post course support and assistance. A wi-fi enabled laptop (not iPad or tablet) is required for this course along with a basic understanding of ICT and the internet.

Course Benefits

Course Trainer

Abdul Awwal Mahmood

Abdul Awwal, born and raised in the city of Birmingham, United Kingdom, graduated from the initial batch of seven students who formed part of the innovative Multimedia degree program in the first ever such course offered by any educational establishment in the UK. Teesside University, based in the north of England in the city of Middlesbrough, was known as an innovative and genre-creating institute, producing experts in the fields of computing and technology.

Working closely with a variety of companies and organisations, covering such diverse areas as travel, retail, telecommunications, charities and media, Abdul Awwal has built up an impressive knowledge base, placing him in a position where he can effectively expound the benefits and usage of the vast tools available to small and medium businesses, when it comes to utilising online and digital solutions.
