Course Outline

Environmental, Social and Governance (ESG) criteria have rapidly shifted from voluntary corporate social responsibility (CSR) gestures to core strategic imperatives for business survival, access to capital and regulatory compliance in Malaysia. Global supply chains, financial institutions and regulatory bodies now demand rigorous ESG disclosure and performance tracking.

In Malaysia, the regulatory landscape has evolved significantly with MITI's National Industry ESG Framework (i-ESG), Bursa Malaysia's mandatory ESG disclosure requirements for listed companies, and Bank Negara Malaysia's Climate Risk Management and Scenario Analysis frameworks. EU mandates such as the CSDDD and CBAM also directly impact Malaysian exporters and supply chain vendors.

This 7-hour interactive online awareness programme is crafted to demystify ESG, contextualise local and international regulatory requirements, and provide business leaders and operational teams with practical frameworks. Beyond fundamental awareness, the workshop helps organisations perform an initial ESG baseline evaluation and identify key implementation gaps.

The training course lasts one full day starting at 9.30am until 5.00pm, and is inclusive of course materials, certificate, lunch, refreshments and snacks, along with complimentary four week post course support and assistance.

A wi-fi enabled laptop is required for this course along with a basic understanding of ICT and the internet.

Course Benefits

Following this course, you will be able to:

- Demystify ESG Core Concepts — gain a comprehensive understanding of the Environmental, Social and Governance pillars and distinguish them from legacy CSR practices.
- Navigate Malaysian & Global Mandates — understand compliance requirements under MITI i-ESG, Bursa Malaysia, BNM guidelines, and global benchmarks (GRI, ISSB/SASB, TCFD).
- Recognise Business Opportunities & Risks — identify climate, social and governance risks while discovering financial incentives such as green loans and tax allowances.
- Assess Organisational Readiness — conduct a preliminary internal gap assessment to evaluate your company's ESG maturity.
- Formulate an Actionable Roadmap — outline initial steps toward ESG data collection, carbon footprint accounting, and sustainability reporting.
- Build Awareness Across Teams — empower leaders across management, HR, procurement and operations with standard ESG terminology.
- Strengthen Vendor & Supply Chain Position — equip your business to meet strict ESG audit requirements imposed by MNC and PLC clients.
- Identify High-Impact Gaps — expose operational vulnerabilities in energy consumption, labour standards, data privacy and board oversight.
