

TikTok for Business and Marketing

Using TikTok as a Digital
Marketing Strategy

One Day Training Course

Course Outline

Since its launch in 2016, TikTok has grown in popularity as a daily provider of content for social media users. With its trending and viral opportunities to present short form video content, it has become an extremely engaging social media platform.

With almost 1.5 billion active users per month, there is an immense opportunity for businesses to leverage on TikTok as a powerful digital marketing platform to reach target audience and customer groups. Similar to other social media platforms, TikTok offers business specific marketing opportunities and features that can be utilised for conversions and brand awareness.

Our short one day training course focuses on how businesses can use TikTok as a marketing tool to engage with an audience and present a personality of your brand that can't be as effectively communicated on other social media channels. Our trainer focuses on how TikTok can be used with correct objectives and campaign strategies as well as present the advantages the platform offers in a practical hands-on manner.

The training course lasts one full day starting at 9.30am until 5.00pm, and is inclusive of course materials, certificate, lunch, refreshments and snacks, along with complimentary four week post course support and assistance. A wi-fi enabled laptop (not iPad or tablet) is required for this course along with a basic understanding of ICT and the internet.
